

Crafting a psychological evaluation report: Surrogate mothers

Professor Donrich Thaldar

The surrogate mother should:

(1) understand the nature of surrogate motherhood

The surrogate mother should:

(2) agree with the commissioning parents regarding selective reduction

The surrogate mother should:

(3) be motivated by altruism

The surrogate mother should:

(4) enjoy good mental health

The surrogate mother should:

(5) be emotionally well-resourced

The surrogate mother should:

(6) be emotionally available for her own child or children

The surrogate mother should:

(7) be free of unhealthy substances

The surrogate mother should:

(8) be financially stable

Some practical tips

- Clear reasons for conclusions.
- Avoid unnecessary facts.
- Keep it concise, please.

thank you
